MNCHIP's mission is to provide cost-effective and high-quality POCT in vitro diagnostic equipment for the medical and veterinary markets, with products covering Chemistry Analyzers, Hematology Analyzers and Rapid Test Analyzers. MNCHIP is headquartered in Tianjin, with subsidiaries in Suzhou, China and Darmstadt, Germany.

All our finished medical devices are manufactured, tested and approved to the highest international standards. MNCHIP is licensed as a medical device manufacturer in accordance with the NMPA Quality System Regulation. MNCHIP is also certified to the ISO 13485:2016 Quality System Standard for medical devices. Devices are also CE Marked.
